

NEXSTAY

The Operating System for Modern PGs

NEXSTAY is a complete PG ecosystem platform that combines:

- PG Management System
- PG Marketplace
- Tenant Living App

into one unified platform.

Instead of managing PG operations manually through WhatsApp, Excel sheets, paper invoices, and calls, NEXSTAY digitizes the complete workflow for both PG owners and tenants.

1. PG MANAGEMENT SYSTEM

A complete management dashboard for PG owners to run and manage their PG operations efficiently.

Core Features

Room Management

- Track all rooms
 - Room occupancy status
 - Sharing type management
 - Room-wise rent tracking
 - Vacancy management
 - Floor and room categorization
-

Tenant Management

- Complete tenant records
 - Tenant profiles
 - Emergency contact details
 - ID proof storage
 - Room assignment
 - Tenant history
 - Rent tracking per tenant
-

Revenue & Profit Tracking

- Total monthly revenue
 - Pending rent tracking
 - Collected payment tracking
 - Profit overview
 - Expense breakdown
 - Occupancy analytics
-

AI Profit Suggestions

NEXSTAY AI helps PG owners improve monthly profits by suggesting:

- Better pricing strategies
- Occupancy optimization
- Expense reduction opportunities
- Revenue improvement insights

Example:

- Increase pricing for high-demand rooms
 - Convert low-performing rooms into sharing rooms
-

Expense Management

Track all monthly expenses including:

- Electricity
 - Food expenses
 - Maintenance
 - Staff salaries
 - Internet bills
 - Repairs
 - Miscellaneous costs
-

Employee Management

Manage PG employees with:

- Employee profiles
- Salary tracking
- Attendance records
- Role assignment
- Emergency contacts

- Performance/work tracking
-

Complaint Management System

Receive and manage tenant complaints directly through the dashboard.

Features include:

- Complaint tracking
- Complaint status updates
- Image/video uploads
- Maintenance workflow
- Resolution updates

Complaint statuses:

- Pending
 - In Progress
 - Resolved
-

Invoice & Billing System

Automatically generate and manage:

- Monthly rent invoices
- Electricity bills
- Additional charges
- Payment receipts

Features:

- Auto invoice generation
 - Downloadable invoices
 - Payment tracking
 - Due reminders
-

PG Profile Management

Every PG owner gets a dedicated PG profile page where they can upload:

- PG images
- Room photos
- Amenities
- Food details

- Pricing details
 - Security deposit information
 - Rules & policies
 - Availability status
-

Marketplace Promotions

Owners can upload:

- Promotional banners
- Images
- Videos
- Offers
- Featured listings

directly to the marketplace for better visibility.

Notification System

Send notifications to:

- All tenants
- Specific rooms
- Selected users

Notifications can include:

- Rent reminders
 - Maintenance alerts
 - Emergency notices
 - General announcements
-

2. PG MARKETPLACE

A discovery platform where tenants can explore and compare PGs.

Explore Page

Users can browse multiple PGs based on:

- Location

- Budget
- Facilities
- Sharing type
- Room type
- Availability

Features include:

- Smart search
 - Filters
 - AI recommendations
 - Nearby location discovery
-

Reels / Video Feed

A short-form video section where users can:

- Watch PG room tours
- Explore facilities visually
- View food & environment
- Discover PGs quickly

If users like a PG, they can directly:

- Contact the owner
 - Send inquiry
 - Request booking
-

PG Detail Page

Every PG has a detailed page containing:

- Images & videos
 - Pricing
 - Facilities
 - Room types
 - Nearby places
 - Food details
 - Rules & policies
 - Security deposit details
 - Contact options
-

Smart Transparency System

NEXSTAY focuses heavily on transparency.

Users can clearly see:

- Actual rent
- Electricity charges
- Security amount
- Food charges
- Extra fees
- Room condition
- Notice period terms

No hidden surprises.

AI Matching System

The platform recommends PGs based on:

- User preferences
 - Budget
 - Lifestyle
 - Location
 - Facilities
 - Compatibility
-

Smart Roommate Compatibility

Tenants can select preferences like:

- Veg / Non-veg
- Smoker / Non-smoker
- Working professional / Student
- Lifestyle compatibility

This helps reduce roommate conflicts after shifting.

3. TENANT APP / LIVING SYSTEM

Once a tenant joins a PG through NEXSTAY, the platform becomes their PG living companion.

Tenant Dashboard

Tenants can:

- Track rent
 - View invoices
 - Monitor electricity bills
 - Access agreements
 - View PG details
 - Track complaints
 - Receive notifications
-

Tenant Profile

Each tenant gets a personal profile containing:

- Name
 - Photo
 - Contact details
 - Emergency contact
 - ID proof
 - Room details
 - Stay duration
 - Preferences
-

Complaint Raise & Resolution

Tenants can:

- Raise complaints
- Upload images/videos
- Add descriptions
- Track complaint progress

Everything remains documented and transparent.

Digital Billing & Invoice Access

Tenants receive:

- Monthly rent invoices
- Electricity breakdowns

- Payment confirmations
- Due reminders

All invoices are downloadable and stored inside the app.

Notifications & Alerts

Receive updates for:

- Rent due dates
 - Complaint resolutions
 - Electricity updates
 - Maintenance notices
 - Emergency alerts
-

AUTHENTICATION SYSTEM

Login & Signup

Separate onboarding flows for:

- PG Owners
- Tenants

Features include:

- Mobile OTP login
 - Email signup
 - Secure authentication
 - Profile setup
-

CORE VISION OF NEXSTAY

NEXSTAY is not just a PG listing platform.

It is:

- a PG management ERP,
- a tenant living app,
- a trust & transparency system,
- and a marketplace ecosystem together.

The goal is to create a safer, smarter, and more transparent PG experience for both tenants and PG owners.
