

Nexstay

Complete PG Management & Tenant Experience Platform

Making PG Operations Simple, Automated & Profitable

Founder:  Person Shikhar Agnihotri

Company: BeyondX

The Problem

Operational Chaos in the PG Industry

India has over 2 crore students and working professionals living in PGs and co-living spaces. Despite the scale, the industry remains highly fragmented and manually managed.

PG Owners Face:

- Revenue Leakage: Difficulties in rent collection and tracking security deposits.
 - Operational Friction: Scattered tenant records across Excel, WhatsApp, and physical notebooks.
 - Tenant Friction: Manual complaint management and lack of transparency in billing.
 - Growth Barriers: No real-time analytics on occupancy, profits, or multi-property performance.
-

Current Solutions Are Broken

The "Digital Register" Trap

Most current solutions are either too simple (manual tools) or too complex (enterprise software).

- WhatsApp & Excel: Data frequently gets lost; rent reminders are manual and inefficient.
 - Traditional SaaS: Focuses only on data entry rather than operational relief.
 - Fragmented Experience: No centralized dashboard for owners; no dedicated portal for tenants.
-

Our Solution

Nexstay: The AI-Powered PG Operating System

Nexstay is a comprehensive SaaS platform built to transform how PG owners manage their businesses.

Core Features:

- **Automated Rent Management:** Integrated collection cycle with automated reminders.
 - **Operational Automation:** AI-powered WhatsApp assistant for lead qualification and tenant queries.
 - **Financial Integrity:** Real-time tracking of security deposits, expense management, and profit analytics.
 - **Tenant Experience:** Digital KYC, QR-based entry logs, and a dedicated mobile dashboard for complaints and payments.
-

Product Demo Flow

Empowering Owners & Tenants Alike

Owner Dashboard

1. **Add Property:** Rapid setup for multiple locations.
2. **Onboard Tenants:** Digital KYC and room allocation.
3. **Automate Finance:** Collect rent, track deposits, and view expense reports.
4. **Monitor Performance:** Live vacancy tracking and profit/loss analytics.

Tenant Dashboard

- **Transparency:** View real-time rent status and download payment history.
 - **Communication:** Raise maintenance complaints and track resolution status.
 - **Logistics:** Submit notice periods and track security deposit refunds.
-

Why Nexstay Is Different

From "Management" to "Operational Relief"

While competitors focus on being a "digital register," Nexstay focuses on reducing the owner's actual workload.

Feature	Competitors	Nexstay
Management Focus	Data Entry	AI-Operations
Automation	Basic Workflows	AI WhatsApp + Voice AI
User Experience	Software-Heavy	Outcome-Focused
Tenant Side	Limited	Integrated Ecosystem
Insights	Basic Reports	AI Occupancy Prediction

Market Opportunity

A ₹50,000+ Crore Industry

The PG and co-living market is rapidly evolving towards professional management.

Target Segments:

- **Student PGs:** Near major educational hubs (e.g., Kanpur, Delhi).
- **Professional Co-Living:** Sector-specific housing (e.g., Noida IT hubs).
- **Institutional Hostels:** Large-scale university accommodations.

Market Potential:

With over **1,00,000+ PG properties** in India, capturing just 1% of the market (1,000 customers) creates a massive recurring revenue stream.

Business Model

Scalable Bed-Based Pricing

We avoid complex "per room" pricing, focusing instead on Beds Managed to reflect the actual operational load.

Plan	Pricing	Target
Starter	₹4,999 / Month	Up to 50 Beds
Growth	₹8,999 / Month	Up to 100 Beds
Enterprise	₹14,999+ / Month	Multi-Property Chains

- **Setup Fee:** ₹10,000 - ₹30,000 one-time for premium onboarding and AI integration.

Revenue Projection

Path to ₹6 Crore Annual Recurring Revenue (ARR)

By targeting medium to large PGs, Nexstay achieves high-margin growth.

- **Milestone 1:** 100 PG Clients (Avg. ₹5,000/mo) = **₹60 Lakh Annual Revenue.**
- **Milestone 2:** 1,000 PG Clients = **₹6 Crore Annual Revenue.**

Projections focus on recurring subscription revenue and exclude one-time setup fees.

Go-To-Market Strategy

Geographic Expansion & Outreach

Phase 1: Strategic Hubs

- **Kanpur & Lucknow:** Leveraging local networks and incubator support (SIIC IIT Kanpur).
- **Noida/Delhi NCR:** Targeting the high-density professional co-living market.

Acquisition Channels:

- **Direct Sales & Field Agents:** High-touch demos for large property owners.
 - **PG Associations:** Partnering with regional bodies for bulk onboarding.
 - **WhatsApp Outreach:** Utilizing Nexstay's own AI capabilities to find and convert leads.
-

Competitive Advantage

The Modern AI-First Advantage

- **Affordable Premium:** Higher value than budget tools at a fraction of enterprise costs.
 - **Rapid Implementation:** Modern UX allowing setup in minutes, not days.
 - **AI Intelligence:** Automated lead qualification and rent follow-ups that replace human effort.
 - **UP Startup Ecosystem:** Path towards DPIIT recognition and marketing assistance grants (up to ₹7.5 Lakh).
-

Future Vision

India's Largest PG Operating System

We are building beyond software—we are building an infrastructure for the rental economy.

- **AI Financial Services:** Automated tenant credit scores and digital rental agreements.
 - **PG Marketplace:** Helping owners fill vacancies through an integrated booking platform.
 - **Smart Access:** Integration with smart locks for fully automated check-ins/check-outs.
-

Funding Ask

Seeking ₹10 Lakhs Seed Funding

To accelerate our vision and achieve the next 12 months of runway.

Allocation:

- **40% Product Development:** Completing the AI-WhatsApp layer and mobile apps.
- **30% Sales & Marketing:** Targeted outreach in UP and Delhi NCR hubs.
- **20% Team Hiring:** Key technical and operations roles.
- **10% Operations:** Infrastructure and legal.

Currently pursuing DPIIT Startup Recognition and incubator onboarding (AIC AKTU / SIIC IIT Kanpur).
